

LALITH SAGAR KAMBALA

5006 W, 108TH Terrace, Overland Park, KS | lalithsagarkambala@gmail.com | (913)-488-0303 | [LinkedIn](#)

EDUCATION

University of Central Missouri, Lee's Summit, Missouri

Master's in Computer Science (Aug 2023 – May 2025) | GPA: 3.55/4.00

Anil Neerukonda Institute of Technology & Sciences (ANITS), Andhra Pradesh, India

Bachelor of Technology in Computer Science and Engineering (Sep 2019 – Apr 2023) | GPA: 8.79/10

CORE COMPETENCIES

- **Programming** : Python, Java, C, C#, SQL, JavaScript, Object-Oriented Designs
- **Frameworks & Tools**: Flask, ReactJS, TensorFlow, NumPy, scikit-learn, Keras, Tableau, MongoDB Atlas, AWS
- **Skills**: Data Structures & Algorithms, Data Analysis, Networking fundamentals, Deep Learning, regression, classification and Generative models
- **Core Subjects**: Database Systems, Adv Algorithms, Adv Operating Systems, Cloud Computing, Agile Methodologies
- **Platforms**: VS Code, Jupyter Notebook, Embedded Linux, Azure, Microsoft 365, Git

ACHIEVEMENTS & CERTIFICATIONS

- **Smart India Hackathon 2022**, Winner
- Oracle Cloud Infrastructure 2024 **Generative AI** Professional (1Z0-1127-24)
- Introduction to **Large Language Models** (LLM) by Google Cloud
- Accenture North America **Data Analytics and Visualization** Job Simulation on Forage - January 2025
- **AWS Certified Cloud Practitioner**

PROFESSIONAL EXPERIENCE

Web Development Intern, Coincent Technologies, India (Sep 2022 – Oct 2022)

- Engineered a comprehensive Job Portal Management System utilizing **HTML**, **CSS**, and **JavaScript**.
- Managed SQL database operations for handling employee records and job requirements. Enhanced database efficiency through optimized queries and schema design. Improved UI/UX for enhanced user engagement, reducing bounce rates by 20%.

PROJECTS

Kanban Board

(Aug 2024 – Dec 2024)

- Developed an interactive Kanban board application to enhance task management and workflow visualization.
- Orchestrated the creation of a fully responsive user interface using React.js. Built RESTful APIs with Spring Boot to manage tasks.
- **Technologies**: React.js, Docker, Spring Boot, MySQL

Payroll Management System

(Sep 2023 – Dec 2023)

- Created a robust system to manage employee financial records, including salary calculations, deductions, and leave management.
- Optimized SQL database queries to ensure smooth execution and processed over 1,000 transactions, maintaining 99.9% accuracy in payroll data.
- **Technologies**: Python, SQL, MongoDB, HTML, CSS

Brain Tumour Detection Using Deep Learning

(Nov 2022 – Apr 2023)

- Constructed a convolutional neural network model achieving **94% accuracy** in detecting brain tumours from MRI scans.
- Leveraged a dataset of 3000 MRI images and applied data pre-processing techniques for optimal results.
- **Technologies**: Convolutional Neural Networks, Python, TensorFlow, Keras

8 Coin Using Blockchain

(Dec 2021 – Jun 2022)

- Built a cryptocurrency model utilizing blockchain technology for secure transaction tracking.
- **Technologies**: Blockchain, Python, Flask

WORKSHOPS & TRAINING

Amazon Web Services (AWS), Gained expertise in deploying EC2 instances, managing S3 buckets, and configuring secure VPCs in AWS.
